What will you need tomorrow? It's tough to predict the future, but with VersaLink, it's easy to be prepared. In fact, print just scratches the surface of what's possible. Along with built-in, comprehensive security features, these Workplace Assistants deliver the everyday, must-have capabilities you need now, with plenty of room to add new features as your work evolves.

ADAPTABLE TECHNOLOGY THAT FLEXES WITH YOU

Your work is always evolving, so you need technology that's always a step ahead. Xerox® ConnectKey® Technology-enabled VersaLink provides the adaptability needed to support advancements in technology and work processes. With regular firmware updates and an ever-growing collection of productivity tools delivered with the App Gallery, VersaLink helps you stay ahead of the change.

BREEZE THROUGH TASKS EFFORTLESSLY

Getting up to speed is easy with a tablet-like touch screen that balances simplicity and time-saving efficiency. The familiar, intuitive user interface (UI) guides you through tasks, eliminating extra steps. And the ability to personalize the UI empowers you to work the way you want.

Mobility features, like Wi-Fi Direct, take the hassle out of printing directly from your favorite mobile devices. Near Field Communication (NFC) lets you authenticate with a smartphone to connect in seconds, and the Xerox® Quick Link app enables you to quickly connect and print without IT support, reducing the burden on IT teams.

And with VersaLink Devices, more capabilities means added convenience, not more complexity. Leading-edge scanning functionality and automation of physical and digital workflows allow you to scan, digitize and route information without missing a beat, reducing errors and saving time. Furthermore, industry-specific apps for education, healthcare, legal and more help you stay plugged in and productive.

HELLO, DIGITAL RESILIENCE

Translator. Proofreader. Form checker. Do-it-all digitizer. VersaLink makes it easy to tackle the hardest challenges. Stay ready with access to an expanding portfolio of cloud-hosted apps and the ability to tailor solutions for your specific needs through the Xerox Partners program.

And with access to Xerox® Workflow Central Platform, a cloud-based solution that takes the guesswork out of converting physical and digital files into usable formats right from the VersaLink user interface, even complicated work processes are easy. It helps you get the most out of your Workplace Assistant, so you can stay productive and secure from the office or on the move.

PROACTIVE SECURITY YOU CAN COUNT ON

VersaLink's multi-layered protection safeguards all system components. A comprehensive range of proactive security features stop even the most sophisticated security threats where they start, preventing malicious attacks, proliferation of malware, unauthorized access or changes and breaches that lead to downtime.

To simplify security event reporting and management, VersaLink Devices can integrate with Security Information and Event Management (SIEM[1]) Tools. McAfee® whitelisting constantly monitors, detects and blocks threats in real time. And automated security responses provide invaluable time savings and peace of mind.

SUPERIOR IMAGE QUALITY

With high-resolution output of 1200 x 1200 dpi, the VersaLink takes your documents to the next level with sharp image quality. Rich blacks and smoother shades give your communications impact, while crisp text enhances clarity and legibility.

SUSTAINABILITY WITHOUT COMPROMISE

All VersaLink Devices meet or exceed the strictest globally recognized standards for sustainability, including EPEAT and ENERGY STAR®, providing environmental benefits without ever having to compromise on performance or quality.
